

Don't let science hold you back from a career as a nurse or midwife

If you want to study nursing or midwifery, but you don't have the required science credits or you want to boost your science confidence before you start, this course is for you.

- Study online, in your own time
- Costs \$803.21
- Runs every two – three months
- Expect to study 8-12 hrs per week for about 12 weeks. The course is self-paced so you could finish more quickly.
- Open entry

What will you study?

You will study basic biology, chemistry, microbiology and mathematics (in the context of drug and drip calculations).

How will you study?

You will complete a range of online activities, including lessons and exercises, watch video clips, try some quizzes, complete online multiple choice tests and complete formal assessments.

After successful completion.

This pathway is designed to help you attain the science prerequisites

for entry into the Bachelor of Nursing or Bachelor of Midwifery programmes.

If you choose not to pursue a Nursing or Midwifery pathway, you can cross credit what you have learnt towards a Diploma in Technology (Science) (Level 6).

What are the science prerequisites for nursing or midwifery study?

Candidates are required to have at least 14 credits each at NCEA Level 3 in Biology, Chemistry, Physics or Science or equivalent for the Bachelor of Nursing (along with other prerequisite subjects). Bachelor of Midwifery candidates are required to have at least 14 credits at NCEA Level 3 in Biology or Chemistry, or equivalent (along with other prerequisite subjects).

If you have met all the entry requirements for Nursing or Midwifery but don't have the science pre-requisites, this is the programme for you.

Next step.
